

CLEMENCEAU GIVES DEPUTIES TREATY

"We Make Peace as We Made War: Without Weakness," He Says

FINISHING AUSTRIAN PACT

U. S. and Britain Pledge to Defend French Ally

Paris, June 30.—(By A. P.)—The first public announcement of the text of the defensive pact between France, Great Britain and the United States will be made in the Chamber of Deputies, the Echo de Paris says.

The convention, which was signed Saturday, stipulates that violation of the peace treaty by Germany will give France the right to request American and British assistance.

By the Associated Press. Paris, June 30.—In presenting the treaty to the Chamber of Deputies today Premier Clemenceau made a brief speech in which he recalled the French National Assembly which met at Bordeaux in 1871, and added:

"We make peace as we made war, without weakness. Internal peace is a necessary condition of external peace. The Center and Right cheered the premier, while the extreme Socialist Left remained silent.

The task of the allied and associated powers is not ended with the signing of the treaty with Germany and the nations must continue to be united in order to see that the clauses of the treaty are carried out.

French Require Ships. It will take some years for France to regain her normal mode of life, and what France needs most at present is ships, the president said, because only an increase in importations can bring about a decrease in the present high prices of raw material and the necessities of life.

There was complete relaxation in Peace Conference circles and in Paris generally today after the period of tension which culminated with the acceptance by Germany of the peace terms and the final signing of the treaty at Saturday's memorable ceremony in the Versailles palace.

The calling of a new meeting of the Council of Ten, which will be the supreme body of the conference, will depend upon the completion of the program for the future proceedings now being framed by the principal powers.

The Montenegro Government has sent a note to the Peace Conference protesting its refusal to allow Montenegro representation in the peace negotiations with Germany.

Turks Ordered Home. The Turkish delegation now in Paris has received from the Council of Four a note advising it that nothing would be gained by its longer stay in Paris at the present time.

The council in the note advises the Turkish representatives that the Ottoman government will be informed in due course when the time has arrived for the exchange of ideas which will be likely to prove profitable.

The principal allied and associated powers desire to thank the Turkish delegation for the statements which they requested permission to lay before the peace conference at which the statements have received and will continue to receive the careful consideration which they deserve.

But they touch on other interesting international questions whose immediate decision is, unfortunately, impossible. Though the council are most anxious to proceed rapidly with the final settlement of peace, and fully realize the inconvenience of prolonging the present period of uncertainty, an exhaustive survey of the situation has convinced them that some delay is inevitable.

Chinese Yet May Sign. In spite of their refusal to sign the peace treaty Saturday, the Chinese delegates are not regarded as having withdrawn from the Peace Conference and will continue to take part in the proceedings. The delegation at present is awaiting instructions from Peking.

Conditioning the raising of the blockade upon Germany's ratification of the treaty is regarded in conference circles as a sure plan for securing a speedy ratification because of Germany's food shortage.
